shoes

Was it printed correctly?

To verify if it has been printed correctly at 100%, take a ruler and measure the scale - it should measure 5cm.

How to measure

Instructions for use

Place your heel here

Cut here

- 1 Print this template in real size and trim around the indicated area. **Do not reset the print size.**
- 2 Put the sheet on the floor supporting the heel line on a wall and place the heel on top.
- 3 Make sure that the sole of the foot is fully supported against the wall and straight, with toes outstretched.
- 4 Find your size by following the top line closest to your big toe.

Keep in mind that this template will only give you an approximation of the actual shoe size (not an exact measurement).
